HIFISHOW - HELSINKI 18.-19.9.2021

HIFI2021 -hifishow is the biggest hifi event in Finland - Organized since 1978.

This year showtime is 18.-19. of September

Show is located on congress premises of Helsinki Messukeskus (fair center) and congress hotel Holiday Inn Expo. Venuu is perfect for Hifi exhibition.

Lot of different type of showrooms/cabinets, opentype corridor booth as well as spacious hotel rooms

At the same time on fair center is Habitare-event, which is biggets, high profile furniture, home decoration and design event in Skandinavia. Visitors of Habitare have also access (=ticket is valid) to HIFI2021 -hifishow. HIFishow gets lot of new audience also "outside" of hifi enthusiasts.

2019 Habitare had over 52.000 visitors and on HIFI2019 we had about 10.000 visitors on three days.

This year we have little different arrangement, thus we sell also separate tickets only to HIFishow. People do not "have to" buy much more expensive tickets to Habitare to get in HIFI.

Showrooms are also located more on same area than before and we have now rooms available also on the hotel. Opening time is now two days (before three). Friday has been too quite and "costly".

For these reasons, it is little difficult to predict the number of estimated visitors compared to previous years. Our estimate is still about 6000-7000 visitors (based on daily numbers 2018 and 2019).

HIFI2021 is the best place to be, when it's about HIFI.
